Dick Sanders

What a wonderful photo. Gordon was a one time member of the OBA Committee, remembered fondly. Also in the photo are: David Stewart, Rhodes Scholar and my late wife's first boss, at Northern Drug and Chemical here in Newcastle; Adrian Hofman, a lecturer at Newcastle Technical College (now TAFE) where he taught me Metallurgy; Colin Standen, former OBA President, a gentleman and a friend; Matt Hayes, journalist, who wrote a review in high praise of our 1956 school play 'The Happiest Days of Your Lives'; Air Vice Marshal Jack Cornish who was famously the pilot for the Queen during her Australian visit in the 50s.
