Getting Down to Facts . . . !

It's not what you pay, but what you get for what you pay, that counts.

A car with a smart body does not say it's a good car . . . a suit of smart looking material does not signify a good suit . . . it's the quality right through that makes value. The "inside" of every Rundle tailored suit sets the standard of quality. Cheap tailoring has not the in-built quality that stands for full value for your money.

A chain is as strong as its weakest link . . . a suit is as long wearing as its inferior trimmings and inside workmanship . . . it pays you to be Rundle tailored . . . there's not a weak link in their chain of Tailoring.

Feel the materials in the booklet — and visualise the fact that the "inside" section of Rundle suits are of equal goodness.

You can place your suit order at Rundle's with the satisfying confidence that the price you pay receives the full equivalent in what you receive — That's real value.
